

karma press release

Stylist.com says **Karma Salon's** reds are "a great mix of sweet and sexy". We couldn't agree more. And we're not alone. **Karma Salon**, home to hip hair styling and state of the art color in Greater New Haven, is one of only three salons in the tri-state area to be featured on upcoming episodes of AOL's online "**Hot in My Salon**" series.

"Because clients rate salons by the personal service, experience and talent they receive," **Be Magazine** says, "we stand up for the salons that couldn't get press, but nevertheless, did a fabulous job everyday serving their clients with first class attention and care." Because of that, **Be Magazine** debuted **Karma** as #87 in their list of the best indie salons nationwide, and most sought after salon in New Haven. To which we say "not bad for starters".
